

# Enoxaparin Injections (Inhixa)

## It is to help:

Thin your blood and stop blood clots

## How to use it:

Left side

Right side

Inject in to your tummy

Your doctor or nurse will show you how to do this

Use a different part of your tummy each time you inject

Put used injections in the yellow bin

## You may:

Get pain and bruises on your tummy

Get headaches

## Tell your carer or a doctor straight away if:

Bleed a lot or cough up blood

Have blood in your wee or poo

You fall over and hit your head

## If you would like to know more:

Ask your nurse, pharmacist or doctor

Or ask your carer to find out more for you from the leaflet inside the medicine box
