Support to stop smoking

Birmingham ***Quit with Bella app***

Stopping smoking has multiple benefits – food tastes better, sense of smell returns to normal, teeth and nails stop yellowing, money is saved and health benefits for increasing life expectancy by up to 10 years! 'Quit with Bella' is an app in Birmingham which anyone preferring to self-manage their quit attempt or seek additional support on their quit journey can download.

Birmingham ***Help from GPs and Pharmacies***

There are over 300 GPs and pharmacies delivering stop smoking services in Birmingham. For those who would like one-one support there are multiple smoking cessation advisors around the city and can be found by scanning the QR code or visiting: bit.ly/stopsmokingbirmingham

Solihull ***Stop Smoking Service***

Improving your sleep when you have arthritis

Getting the right amount of good quality sleep has many benefits for our physical and mental health. Evidence suggests it's just as important as having a healthy diet and doing regular exercise. Good sleep can:

- help your concentration levels
- help you manage pain better
- allow your body to repair damaged tissue
- improve your immune system
- help your mental wellbeing
- help you stay at a healthy weight

Getting enough good quality sleep can play a big role in helping you manage a long-term health condition like arthritis. Find support here.

Keeping well while you wait for surgery

The pandemic has meant that many operations and procedures have been postponed. Some people are waiting to see a GP and many people are waiting longer for surgery and other treatments.

This can be an anxious time and you probably have questions and concerns. Versus Arthritis are here for you, while you're waiting.

0800 5200 520
(free: Monday–Friday, 9am–6pm)

Full body stretching routines

These follow-along twenty minute full body stretch routines have been designed especially for those living with arthritis and other musculoskeletal conditions.

Each video is designed for a different time of your day, from getting moving when you wake up, keeping mobile during the day to a relaxing stretch in the evening.

Remember to drink water while you're exercising and make sure you have plenty of space around you to avoid injury. It's a good idea to start slowly and build up gradually if you're new to exercise.
